

Options

Introduction

The following is a description of all the Capalnstaller options and how to access them. The options menu is available in the Capalnstaller Console independently of which plugin is selected.

Accessing the options

- Click *Tools Options* in the top menu

Configuring the options

- [Accessing the options](#)
- [Asset Management options](#)
- [Change log options](#)
- [Configuration Management options](#)
- [General options](#)
- [OS Deployment options](#)
- [Patch Management options](#)
- [Reporting and Queries options](#)
- [System Administration options](#)
