

# General menu description

## Introduction

Some menus and menu items remain the same regardless of the module activated; others will change according to the module activated. The following is a description of the general menus in the CapalInstaller Management Solution. Links to descriptions of the menus for each module are also included.

## Menus

File	Edit	View	Go	Tools	Actions	Help
------	------	------	----	-------	---------	------

The console menu is context sensitive, i.e. each module in CMS will have specific functions available. For further information on each menu, click the links below:

- [Toolbar and menu description for Asset Management](#)
- [Toolbar and menu description for Configuration Management](#)
- [Toolbar and menu description for OSD](#)
- [Toolbar and menu description for Reporting](#)
